

## Chipolbrok Atlantic in wind energy delivery

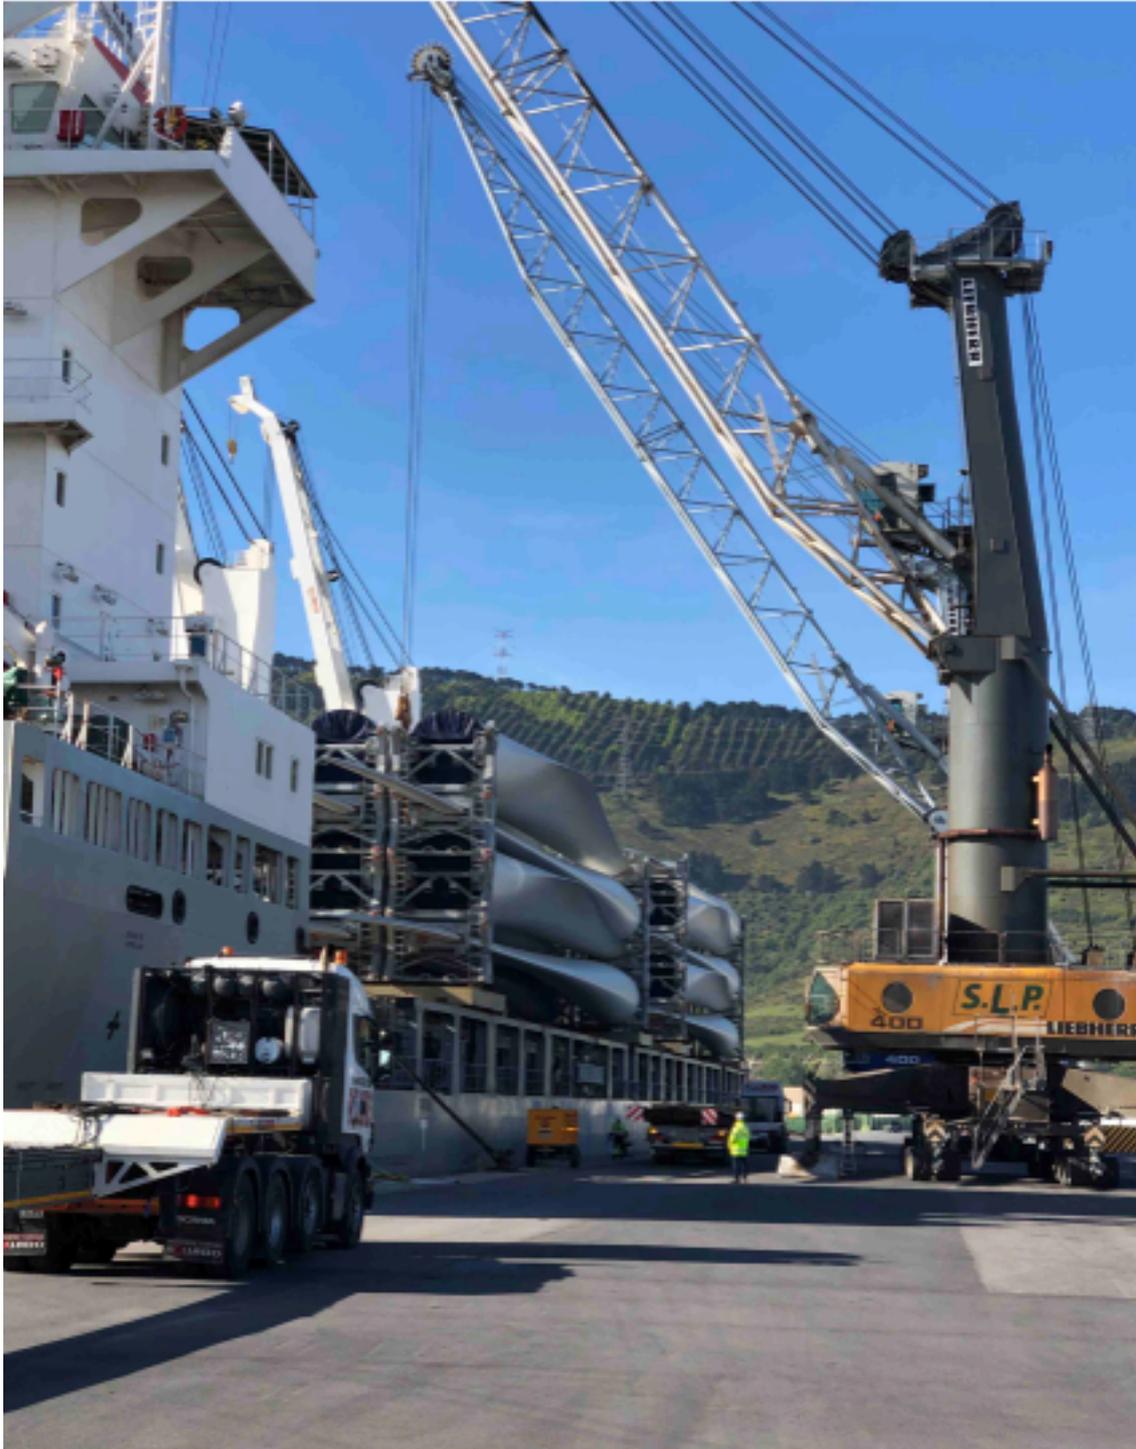

Tuesday 11 June 2019

Chipolbrok's multipurpose vessel Chipolbrok Atlantic has called at the port of Bilbao in Spain to deliver 84 wind turbine blades.

The vessel departed Lianyungang and Xingang (China) with 60 units stowed on deck, while another 24 pieces had been loaded under deck.

Upon completion of the discharge operations, the vessel proceeded to Antwerp and Hamburg to load breakbulk and project cargoes destined for Aden, Yemen and Mumbai, India.

Amongst the cargoes, a switch and control unit weighing 157 tonnes was loaded in Hamburg for transportation to Mumbai.

The last port of call in Europe was Livorno, Italy, where two tanks were loaded on deck for delivery in Nantong, China.
